**No 63/2020**

L'Ambassade de Suisse présente ses compliments au Ministère Hellénique des Affaires Etrangères et a l'honneur de l'informer que par l'intermédiaire de la Commission fédérale des bourses pour étudiants étrangers (CFBE), la Confédération suisse offre des bourses universitaires d'excellence pour des étudiants étrangers (Universités suisses, Ecoles polytechniques fédérales, Hautes écoles spécialisées) pour l'année académique 2021 - 2022. Celles-ci sont offertes dans le cadre d'un pool (offre de bourses à un groupe de pays). Ces bourses sont destinées à de jeunes chercheurs déjà titulaires d'un diplôme d'enseignement supérieur (post gradués). Elles doivent leur permettre d'y mener des travaux de recherche dans les domaines auxquelles les universités suisses accordent une attention particulière. En outre, l'offre concerne aussi des bourses d'études artistiques (conservatoires et hautes écoles d'art).

Les conditions d'octroi des bourses sont communiquées aux candidats dans le « Application Guidelines for the Academic Year 2021-2022 » (ci-joint). Les intéressés doivent s'adresser directement à l'Ambassade pour y obtenir les formulaires de candidatures à remplir en deux (2) exemplaires. Le dossier complet est à renvoyer à l'Ambassade **jusqu'au 31 octobre 2020**. Les dossiers reçus après cette date, ou les dossiers incomplets, ne seront pas pris en considération. Aucune demande de candidat(e) résidant déjà en Suisse depuis plus qu'un (1) an le moment du début de la bourse, ne sera prise en considération.

Au Ministère Hellénique  
des Affaires Etrangères

Athènes

Avant de déposer leur candidature, les intéressés devront s'assurer que leur plan d'étude ou leur projet de recherche peut être réalisé à l'Université, l'Ecole polytechnique ou la HES choisie en prenant contact au préalable avec un professeur ou avec la direction d'un cours post grade en Suisse.

La Commission fédérale des bourses donne une certaine priorité aux intéressés qui soumettent leur candidature dans le cadre d'une coopération entre l'université de leur pays d'origine et une université suisse, notamment pour les travaux de recherche. Au titre de l'année académique 2020-2021 l'Ambassade se réjouit de communiquer au Ministère que huit (8) bourses ont été octroyées par le Gouvernement Suisse à des étudiants grecs.

L'Ambassade remercie le Ministère de bien vouloir, comme par le passé, faire diffuser cette offre par le biais du Ministère de l'Education nationale.

L'Ambassade de Suisse saisit cette occasion pour renouveler au Ministère Hellénique des Affaires Etrangères les assurances de sa haute considération. *M.*

# About the ...

## Swiss Government Excellence Scholarships

Through the Swiss Federal Commission for Scholarships for Foreign Students (FCS aka ESKAS, CFBE), the Swiss Government grants foreign researchers postgraduate scholarships at Swiss higher education institutions (Universities, Federal Institutes of Technology and Universities of Applied Sciences, Arts and Music Schools).

The Swiss Government Excellence Scholarships are intended for highly motivated, competitive young researchers who have graduated from university (postgraduates). These scholarships will enable applicants to undertake research work in the fields in which the Swiss universities are particularly active.

### Read the FCS webpage

Specific scholarship types are offered for each country. Please go to the FCS webpage in order to see **which type of scholarship is offered to your country of origin**. Click FCS website: [www.sbfi.admin.ch/scholarships\\_eng](http://www.sbfi.admin.ch/scholarships_eng)

### Submit in your country of origin

**Applications have to be submitted in the candidate's country of origin (citizenship)**. All candidates for a Swiss Government Excellence Scholarship have to submit their application at the specified contact (normally the Swiss Embassy) responsible for their country of origin. Double citizen are free to choose the country of origin where they prefer to submit their application. The applications have to be submitted for a preliminary selection to the national institution in charge and/or to the Swiss diplomatic representation in the applicant's country of origin. The Swiss diplomatic representation will then forward the pre-selected applications to the FCS for final selection. In case your current country of residence is not your country of origin please submit your application to the Swiss diplomatic representation in your country of origin.

## In September

### Start of scholarship

1st of September

# Selection criteria

## Important selection criteria

### **The 3 dimensions of selection criteria**

The Swiss Government Excellence Scholarships are highly competitive. The following aspects of the application are considered mainly:

#### **1) The candidate**

Her/his academic profile, the research capacity and motivation.

#### **2) The research proposal**

Its originality and methodological soundness.

#### **3) The academic context**

The quality and context of supervision and the potential for future academic cooperation.

## Strengthening cooperation

### **Longterm perspective**

Candidates submitting their applications within the framework of a cooperation program between their academic home institution, where they are at the moment and/or where they accomplished their education, and a Swiss university/ institute have a certain priority.

# Academic host – a precondition

## Academic supervisor

To have an eligible application package, each applicant wishing to undertake a research, PhD or a Postdoctoral scholarship must find a host professor in Switzerland willing to support and entitled to supervise their scholarship research project or PhD project.

A specific letter of invitation must imperatively be part of the application package. This is also valid for doctoral schools.

**Failure to have an academic supervisor will result in the rejection of the application** by the relevant national institution in the host country or by the Swiss diplomatic representation. An application without a host professor is not complete and will therefore be rejected.

## Before contacting a host professor

### Prepare yourself well before contacting a prospective host professor

Make sure that the prospective academic supervisor actually works in your field at a Swiss university.

Be specific and furthermore make sure that you possess all of the competences required for the intended scientific collaboration. Find out, for instance, what requirements must be met in order to obtain a Master's degree at the university in question before contacting professors.

Note: Many professors receive numerous requests. Finding a professor who is willing to supervise you can be a major challenge. It can take several weeks or even months.

Watch this video for some hint before contacting a supervising professor:

<https://www.youtube.com/watch?v=kp4NngZ2T00>

## Some hint

## Please note

The FCS application for a PhD scholarship including the support letter of a prospective host professor and the application for admission by a Swiss University for a PhD study are two separate procedures.

# Finding your supervisor

## Where to find

### A prerequisite for the application

All Swiss Government Excellence Scholarships are supervised and supported by a professor. The first step in the application process for the scholarship candidate is to find a professor at a Swiss academic institution **willing to act as her/ his academic supervisor** for the scholarship research project.

What should you do before contacting a potential academic supervisor?

Watch this: <https://www.youtube.com/watch?v=kp4NngZ2T00>

The FCS encourages candidates to find their academic supervisor on their own. There is no specific support offered in this bottom-up matching process. It is each applicants own task. A support letter from a host professor is required in any case. This is valid for doctoral school PhD applications as well. If the chosen doctoral school does not allow you to contact a supervisor before being admitted to the school, an application for the Swiss Government Excellence Scholarship is not possible.

### Understanding the role of academic supervisors

Professors reported to the FCS that they are frequently contacted by scholarship applicants asking for support. Therefore the FCS secretariat issued a leaflet explaining the role of an academic supervisor for a Swiss Government Excellence Scholarship holder.

## Good to know

The FCS recommends potential academic supervisors not to support more than 1 - 2 applicants per year. You find the leaflet «Will you be my supervisor?» enclosed in your application package. Feel free to use it when contacting your potential supervisor.

# PhD Scholarships

## Further important information for PhD applicants

### Two separate procedures: Application and admission

The FCS application for a PhD scholarship and the application for admission by a Swiss university for a PhD study are two separate procedures. The admission to a PhD study at your chosen Swiss university is a *conditio sine qua non* for a potential attribution of a FCS scholarship – but no guarantee though for a positive decision by the Federal Commission for Scholarships FCS. It is the applicant's responsibility to manage both procedures in parallel.

### Two different ways to achieve a PhD

**The first way** to achieve a doctorate degree (aka PhD) consists in undertaking **doctoral studies under the supervision of an academic mentor** (supervisor). In this case, the **admission to the PhD takes place after the scholarship start**.

### For doctoral school applicants additional document required

**The second way** consists in **being admitted to a doctoral school**, which provides the framework for the following doctoral studies. Please inquire your admission directly at the corresponding school.

- In addition to all other application documents (including the support letter from a supervisor), the **admission letter from the doctoral school is required with the application dossier**. As this takes time applicants must plan accordingly and submit their application for admission to the doctoral school sufficiently in advance of the scholarship programme deadline.
- If the chosen doctoral school does not allow you to contact a supervisor before being admitted to the doctoral school, the application for the Swiss Government Excellence Scholarship is not possible.
- In case you do not get the admission to the doctoral school until the application deadline, and therefore cannot apply for the next academic year, you can always begin your studies without the Swiss Government Excellence Scholarship and then apply for the following academic year. Please note: the exclusion criteria «Applicants who are in Switzerland since more than one year at the beginning of the scholarship» stays effective.

- Research proposal including time frame

# Obligations

They must comply with the FCS instructions, regulations concerning the residence for foreigners in Switzerland and with the university/ art institution regulations.

## No family allowances

### Family and children

The FCS does not have the authority to decide on the possibility of bringing the family of the scholarship holder to Switzerland. This is left to the Federal and Cantonal Migration Offices, which at present deal with requests very restrictively. The scholarship amount covers the living costs of one person only. There are no additional family allowances.

## Notifying FCS about other grants and other forms of financial support

### Other grants and additional income

If you are awarded another additional scholarship or you receive other forms of financial support (such as income from teaching and research assistance, etc.) you are asked to notify the Federal Commission for Scholarships. The scholarship cannot be used as top-up to an existing full employment.

# Notes concerning corona-virus pandemic

**Corona-virus pandemic** The uncertainty surrounding the further development of the corona pandemic remains high.

**Call for Scholarships** The call for scholarships of the Swiss Confederation for the academic year 2021/22 is addressed to all countries regardless of the current corona pandemic situation.

**Reservations** Scholarships 2021/2022 will be awarded subject to the rules in force at the start of the scholarship on 1 September 2021.

Whether or not a scholarship awarded in the future can actually be taken up depends, on the one hand, on the applicable rules of the countries of origin and the Swiss Confederation and, on the other hand, on various other conditions (such as health situation, visa procedures, opening of borders, university operation, etc.).

The situation is constantly being reassessed. It is not possible to give more precise details for the time being. Current information on the Swiss Government Excellence Scholarships can be found on: [https://www.sbfi.admin.ch/scholarships\\_eng](https://www.sbfi.admin.ch/scholarships_eng) as well as on Twitter [@Swiss\\_FCS](https://twitter.com/Swiss_FCS)

# Swiss Government Excellence Scholarships for Foreign Scholars and Artists

## «Will you be my supervisor?»

**You are a professor at a Swiss academic institution. Foreign students and postgraduate researchers contact you to ask if you will act as their academic supervisor and host professor. The following information may be useful to you in deciding how to deal with such a request.**

- The Federal Commission for Scholarships for Foreign Students FCS (abbreviated as ESKAS in German and CFBE in French) sincerely thanks all potential academic supervisors for attentively choosing their candidate for a Swiss Government Excellence Scholarship and for giving them careful support.

### Scholarship applicants are looking for host professors

- All Swiss Government Excellence Scholarships are supervised by a professor. Therefore the first step in the application process for the scholarship candidate is to find a professor at a Swiss academic institution **willing to act as their supervisor** for the scholarship and support the research project.
- The FCS encourages candidates to find their supervisor on their own for their scholarship research project. There is no specific support offered in this bottom-up matching process.
- The supervisor **evaluates the academic suitability** of a candidate and **must endorse the research proposal** (including the time-frame), which is a central component of the application.
- The applicant has to reach an agreement with the supervisor. The **letter from the professor stating why she/he is willing to support and supervise** the PhD thesis or the (postdoctoral) research is a mandatory element of each application for a Swiss Government Excellence Scholarship.
- Without such support the scholarship application is not complete and will therefore be rejected.
- **The decision to act as academic supervisor or not is entirely up to you, of course.**

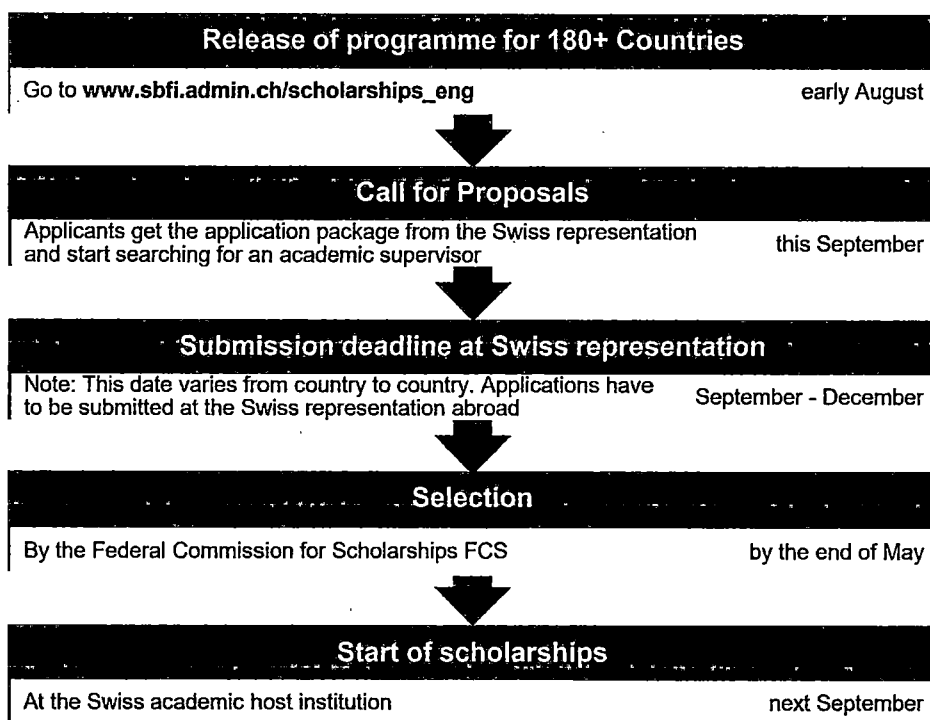

### The academic supervisor:

#### A success factor and a role with responsibilities

- **If you agree** to act as an academic supervisor, you agree to supervise the scholarship holder during their whole research stay (12 months for research fellows and postdocs or 36 months for PhD scholarship holders). PhD thesis supervisors should do their utmost to ensure that adequate funding is available after the scholarship so that the thesis can be completed within a reasonable timeframe (1 or 2 additional years maximum).
- During the scholarship holder's stay in Switzerland, the Confederation together with the international relations office at your university and you as academic supervisor are responsible for them.
- As host professor **you agree to integrate the grantee into your team** and provide good research conditions (lab space and access to infrastructure). With consent of the FCS, a supplementary salary to the scholarship grant is possible up to a certain level. The scholarship cannot be used as top-up to an existing full employment.
- **Field research** is possible **for PhD scholarship holders only** and with accepted fieldwork request by FCS. No co-funding by FCS neither for fieldwork nor for attending conferences.
- Not accepted as academic supervisors for postdoctoral scholarship applicants are their previous PhD mentors and co-directors for the co-tutelle PhD at a Swiss university.
- **Major selection criteria** are the candidate's academic profile, their research capacity, and motivation plus the originality and methodological soundness of the research proposal as well as the quality and context of supervision and the potential for future academic cooperation. The FCS recommends that you **support 1 or 2 applicants per year only**.
- The Swiss Government Excellence Scholarships are prestigious and highly competitive. The expected success rate is around 15 to 20 percent.
- **A letter of sufficient scope from the host professor** should describe the research proposal, the relation to the candidate and possible future collaboration. A short CV from the host professor should be enclosed.
- Your thoughtfully drawn-up host letter **could be the decisive element in the scholarship application**.

## Application procedure

- Yearly release of the call in August. Preparation of application and submission in autumn. Peer reviews of applications during winter. Selection and announcement of decision in spring. Swiss Government Excellence Scholarships run from 1st of September each year.

- Each year since 1961 the Swiss government has awarded **postgraduate scholarships** through the FCS to foreign scholars, now from over 180 countries. The following types of scholarships are offered: research fellowships, PhD- and Postdoc-scholarships as well as Arts scholarships (for selected countries only).
- Swiss Government Excellence Scholarships are awarded for a period of **12 months**. Only PhD scholarships can be extended (up to 36 months at most). For PhDs lasting longer than 36 months the academic supervisors are expected to help organize a follow-up funding solution.
- Once the scholarship has come to an end, holders** are supposed to **return to their country of origin**. Finding employment in Switzerland after the end of the scholarship contradicts the intention of the Swiss Government Excellence Scholarship, which is to promote brain and talent circulation.
- For detailed eligibility and exclusion criteria please consult the information online** (see link below).
